

Who Is Destroying America?

(Continued from Page 1, Column 3)

ist political parties, which were under the control of the Great Banks. The Ruling Class soared into realms of sophistication beyond the ken of ordinary mortals. Truly, they appeared to be "SUPERMEN," functioning as great Capitalists and juggling unbelievable sums of money, while at the same time they secretly supported the Communist Parties of the earth and fomented phony "Proletarian Revolutions." Money power reached its zenith and technology covered the earth.

Technology bred Socialism. The provincial "Right Winger" likes to think that "Radicals" or "Subversives" are behind Socialism; in fact, BIG BUSINESS is behind Socialism. Over a period of sixty years, after the American Civil War, a new managerial and administrative class was created in our universities. Ownership and management were separated. Industry was no longer administered by owners; it was administered by professional executives who were not owners. Thus the "ownership function" atrophied. James Burnham pointed out in his book THE MANAGERIAL REVOLUTION that the new executive class would not work in the interests of owners or stockholders, but would seek to eliminate the "ownership function" entirely. When this is done, you have a state of affairs called "Socialism." By 1929 Wall Street had degenerated into a bucket shop; the "ownership" function was reduced to mere wild, irresponsible gambling. Today Wall Street is described as a "candy shop operation." In fact, the individual investor is fading out as a source of industrial capital, which has been "institutionalized" in foundations and banks, in insurance companies and other large collective investors. Indeed, THE MONEY POWER IS AT THE END OF THE LINE.

Today the "Conservative" is generally an elderly retired person. If he is still active in business, he is a small business man. Perhaps he thinks that he can beat the game, if he gives enough dollars to Carl McIntyre or Billy James Hargis or Robert Welch, if he shouts enough slogans, if he votes for some silly ass who is called a "Conservative." Once upon a time there was a small business man named Henry Ford, who ran a small business called the Ford Motor Company. For a number of years, Old Henry did indeed beat the game and keep his company out of the hands of the bankers; but in the end, they got him. His wealth, ensconced in the Ford Foundation, is part of the loot of the managerial gang. If Henry Ford could not win this game, what makes YOU think that YOU can win?

Today even the system which finally licked Henry Ford is at the end of the line. MONEY POWER will be overthrown; it will not shape the world of tomorrow. It will not be overthrown by "Radicals." The Big Money has all of the important "Radicals" on its payroll. The Big Money will not be overthrown by Communism; the Five Great Banks of New York financed the October Revolution in Russia, put Mao into power in China, controlled all of the thousands of loud-mouthed Marxist idiots who fought upon the barricades. Oswald Spengler said, "There is no proletarian, not even a Communist, movement that has not operated in the interest of money, in the directions indicated by money, and for the time permitted by money." Marxism is a managerial tool of the great Capitalists; there is no proletarian revolution, never has been any proletarian revolution, never will be any proletarian Revolution. Marxism is merely an ideological myth essential to the success of a certain kind of MONEY POWER. The money itself is a peculiar kind of money; it is not gold or silver; in the U.S.A. it is Federal Reserve money. Our Conservatives are greatly agitated because this money is really NOTHING. Oswald Spengler said, "The whole world-economy since the discovery of the steam engine has been the creation of a quite small number of superior heads, without whose high-

grade work everything else would never have come into being. But this achievement is of a creative thinking, not a quantum, and its value is not to be weighed against a certain number of coins. Rather it IS itself money — Faustian money, namely, which is not minted, BUT THOUGHT OF AS AN EFFICIENT CENTER coming up out of a life — and it is the inward quality of that life which elevates the thought to the significance of a fact. THINKING IN MONEY GENERATES MONEY."

This, dear kiddies, is delightful, for the small number of superior heads who can do it. They simply THINK into existence as much money as they wish to have. Don't you wish that YOU could do that? That is the real meaning of money power.

THE MONEY POWER class in America is "Jewish" in the sense that it wears a Jewish veneer over its Mammon-worship (Understand clearly that the people who can THINK money into existence are all ardent Mammon-worshippers, to the exclusion of any other deity). Some of these people are descended from actual Jews, who once dwelt in the ghettos of Poland, Russia, or Germany. Others are of Anglo-Saxon descent. The vague aura of JEWISHNESS which suffuses them is entirely fraudulent. It is not in any way based upon belief in the old Jewish religion. Even the rabbis who dance attendance upon this motley throng do not believe in the old Jewish religion; they make no secret of the matter; they published books, advertised in whole-page ads in the New York Times book review section, saying frankly that they do not believe in the old religion. In the XIX Century the "Old Jews" virtually disappeared; their place was taken by the unbelieving Zionists and Marxists. The believing Jew, in so far as he exists at all today, is a very low-class Jew. Disbelief is a necessary condition for upward mobility. What do the Jews believe in? They believe in MONEY POWER. In this adulation of Mammon, they are joined by a wide section of the Goy upper classes. This is the real basis of the "Judaization" of American culture. MONEY POWER is the name of the game.

Today this power, which has ruled the U.S.A. since the Civil War, which indeed fought the Civil War to capture the power to rule, is FAILING AND FALLING. It is not being overthrown by "Radicals." It is dying for the same reason a man 100 years old dies; it simply has fulfilled its life-span. Oswald Spengler says, "Now something happens that is intelligible only to one who has penetrated to the essence of money. If it were anything tangible, then its existence would be forever — but, as it is a form of thought, IT FADES OUT AS SOON AS IT HAS THOUGHT ITS ECONOMIC WORLD TO FINALITY." Spengler points out that "Money is at the end of its success, and the last conflict is at hand in which the Civilization receives its conclusive form — the conflict BETWEEN blood and money."

The Great Minds of the West have pointed out that we have come to a time of NO CHOICES, that we MUST do certain things or else cease to exist. There is no room in the picture for the unlimited fulfillment of undisciplined desires. Francis Parker Yockey has pointed out the necessity of IMPERIUM. Oswald Spengler pointed out that we have come to the time when MILITARY POWER must of necessity replace MONEY POWER. In the XIX Century, military obeyed money power and served the purposes of money power; but NOW we come to a time when military power will no longer obey money power; it will refuse to serve any purposes except its own. Moreover, it is now implacably hostile to the money power. There is no room for both the money power and the military power in the same world.

Nobody knows this better than the "Jewish" money men of New York. This is why they try desperately to establish "One World" governed by money power rather than military power. They want a world economy, a world religion, a world state, a world race. Remember, these people have a

pretty good thing going. They can simply THINK into existence as much money as they wish to have. It is like possessing a magic lamp like Aladdin, or a goose which lays golden eggs. They toil not, neither do they spin. Yet the money pours in. Let's face it: If you or I had such a thing going for us, we would try to hold onto it, just as the Money Lords do. Oswald Spengler says, "When an organizing magnate writes down a million on paper, that million exists, for the personality as an economic center vouches for a corresponding heightening of economic energy of his field."

In other words, dear kiddies, he can simply write with his pen "\$1,000,000.00" and behold! That million dollars becomes real. Don't you wish that YOU could do that? When you understand that money is a mere category of thought today, and that it can be created out of thin air by the properly anointed, you will understand the blind, intense passion with which the Money Masters guard their system. Today the future of the country demands the demise of their system. If their system persists, the country will be destroyed, will become an uninhabited desert, will be one with Ninevah and Tyre; and still the Money Masters cling to it. Bipedes of the genus HOMO simply do not give up such a delightful trick, not even to save the country; and, for the matter of that, not even to save their own rascal hides, which today are badly jeopardized.

These men instinctively sense that the MILITARY POWER is their mortal enemy. That is why they disarm the U.S.A. in a time of mortal danger. Their only real hope is that they can also disarm the rest of the world; and in this they have failed already. The U.S.A. is disarming, but Russia has become an armed camp all the way from Leningrad to Vladivostok. Beyond that, all of the world's intelligence services know that Soviet Defense Minister Marshal Grechko was appointed BY THE ARMY, not by the civil government. An Armed Force which can appoint its own defense minister IS NOT UNDER CIVILIAN CONTROL. Here we have a factor of appalling importance. MARSHAL GRECHKO IS THE FIRST DEFENSE MINISTER OF ANY IMPORTANT NATION IN 100 YEARS NOT UNDER THE CONTROL OF THE MONEY POWER. The Reign of Money Power ended on the day when Marshal Grechko was appointed defense minister of the U.S.S.R. The United States then had a choice which few recognized and none made, a choice thoroughly against the American grain. WE TOO WOULD HAVE TO BECOME A MILITARY STATE IN ORDER TO SURVIVE. Today the Military power in the Kremlin is implacably hostile to the Money Power in New York. This hostility is explained brilliantly by Francis Parker Yockey in his FOUR ESSAYS. This leads directly to World War III. This war will not be, as some of our muddle-headed "Patriots" say, a war to save Israel, or a war to protect the bankers, or a war manipulated by the Jews. IT WILL BE A WAR WAGED BY THE MILITARY POWER TO DESTROY THE MONEY POWER. Moreover, Military Power is the "Idea whose hour has come." The Five Great Banks which financed the October Revolution in Russia will be vaporized when the mushroom cloud rises over New York. Millions of Jews will be killed in good earnest, and there will be no need to inflate the statistics, as was done in the case of Nazi Germany. The American people will be exterminated practically 100%, and there will be no further need to agitate over such trivial questions as "Sound Money" or "Creeping Socialism."

Can we be saved from this fate?

In theory, salvation is still possible; but nobody is trying. We cannot be saved by braying Jackasses who gallop across the landscape braying that they are "Fighting Communism." (How many atomic bombs do THEY have?) Indeed, controversy about how our Society or our economy should be organized is simply not relevant. The real issue is the question of whether or

(Continued on Page 3, Column 3)
